Mehmet Sacit Çınar

SOC Analyst | Cybersecurity Engineer
mehmetsacitcinar@gmail.com | İstanbul, TR
linkedin.com/in/mehmetsacitcinar/ | sacitcinar.github.io

PROFESSIONAL SUMMARY

Electrical Engineering graduate focused on SOC operations, cyber threat intelligence (CTI), and network security. Creator of Memori Intel, researching threat actor behavior, emerging attack vectors, and vulnerability trends. With an engineering background and knowledge of Splunk and IBM QRadar, I focus on analyzing security logs, investigating alerts, and supporting incident response.

TECHNICAL SKILLS

SOC Operations: Log analysis, threat hunting, incident response support
SIEM: Splunk, IBM QRadar
Threat Intelligence: CTI, threat actor research, security advisory analysis, vulnerability trends
Network & Systems: Network security, TCP/IP, OSI model, Wireshark, Linux basics
Additional Skills & Tools: Python, C++, AutoCAD, Microsoft Office

PROJECTS

Creator - Memori Intel | Cyber Threat Intelligence Project | Mar 2026 - Present
linkedin.com/company/memori-intel/

- Created a practical CTI platform to research threat actor behavior, emerging attack vectors, and vulnerability trends.
- Translate complex security advisories into clear summaries to help the community understand and mitigate active risks.

URL Reputation Checker | github.com/sacitcinar/url-reputation-checker

- Developed a URL analysis tool that combines threat intelligence, domain information, and URL checks into a risk report.

Phishing Email Detector | github.com/sacitcinar/phishing-email-detector

- Built an offline email analysis tool that combines machine learning with header inspection and linked domain extraction.

PCAP Behavior Core | github.com/sacitcinar/pcap-behavior-core

- Built an offline Python tool that analyzes PCAP files to identify TCP scanning patterns, periodic connections, and unusual DNS activity, then presents the findings and supporting packet evidence in JSON and interactive HTML reports.

WORK EXPERIENCE

Electrical Project Engineer | Freelance | May 2025 - Present

- Create technical drawings, electrical schematics, and wiring diagrams for clients using AutoCAD.
- Design electrical installation projects covering lighting, power distribution, and grounding systems.

Engineering Intern | Başoğlu Kablo ve Profil Sanayii | Bolu | Mar 2025 - Apr 2025

- Performed maintenance and repair of electrical faults on production lines.
- Assisted with PLC systems and industrial automation equipment.

Engineering Intern | Bolu İl Özel İdaresi | Bolu | Feb 2025 - Mar 2025

- Prepared electrical bills of quantities using AutoCAD.
- Assisted with approximate cost calculations and technical specifications.

EDUCATION

Kocaeli University | Bachelor's Degree in Electrical Engineering | Sep 2018 - Feb 2025 | GPA: 3.10

CERTIFICATIONS & COURSES

IBM - Cybersecurity Analyst Professional Certificate | Credential ID: CQH4Y1RMR7CM
IBM - QRadar SIEM Foundation | Credential ID: 88f30b86-ead0-4715-aba2-1c6be96554ff
Splunk - Search Expert Specialist | Credential ID: 1Y3KC97PJ5VW
LetsDefend - SOC Analyst Learning Path
Cisco - Networking Basics | Credential ID: a99b155c-d5be-423c-8d27-9d8dd772c269
Cisco - Python Essentials 1 | Credential ID: 8983c50f-2264-454b-b46b-be9adee148cd
CyberExam - Junior SOC Analyst | Credential ID: CE-2026-021369
CyberExam - Security Awareness for Everyone | Credential ID: CE-2026-059325
